

Vivian Roshan Adithan

(+91) 8248477136 • vivianroshan@gmail.com • <https://github.com/vivianroshan> • <https://www.linkedin.com/in/vivianroshan>

Engineering graduate with a passion for software development. Proficient in Java, C#, C++, Python, SQL, NoSQL, Shell scripting, and Web technologies. with Strong problem-solving skills. Ready to make a difference in software development world.

Education

Arizona State University (ASU), Tempe

Aug2023 - Present

- MS in Computer Science

National Institute of Technology (NIT), Puducherry

Jul 2017 - May 2021

- Bachelor of Technology in Electronics and Communication Engineering

CGPA - 7.59/10

Professional Experience

Member Technical Staff, Zoho - Manage Engine OpManager

Jan 2022 - Jul 2023

OpManager is a network management and monitoring software offered by Zoho

- Server side Development with **Java**.
- Added **new feature LAMA** (Log Analytics and Monitoring Application) to send data to **SEBI** (Securities and Exchange Board of India) which opened the OpManager to the **Fin-Tech** space.
- Implemented robust fault tolerance mechanisms for the **Central - Probe communication in the Distributed Edition**, significantly enhancing the product's stability across multiple modules.
- Revamped the **Public Demo site of OpManager** with cutting-edge multithreading concepts, providing a **responsive** and seamless user experience, allowing customers to effortlessly explore the product's features and capabilities.
- Automated the deployment process for the QAs with **PowerShell** and **Bash** scripts to make the testing process easy.
- Fixed **50+ bugs** and handled over **200+ support tickets** which needed developer assistance.

Software Engineer, Mindtree

Jun 2021 - Jan 2022

- Full Stack Web Development with **Dotnet** and **Angular**.
- Designed and developed an **Inventory Management** website for **Dell**.

Intern, Lenovo

May 2019

- Designed and developed an application to track the stage of assembly of each computer by studying the assembly line of computers and how OS is bootstrapped into the computers from the servers.

Projects Undertaken

National Institute of Technology (NIT), Puducherry

- Image generation and Enhancement using **GAN** - Generative Adversarial Network (Machine Learning).
- Enabling the differently-abled Through Morse code (using **Arduino** and **Proteus simulation**).
- Data Compression, Encryption, and Decryption using **Python**.

Mindtree Ltd

- Model Book Store using **Dotnet**, **MSSQL**, and **Angular**.

Personal Project

- **Version Controlled Resume**: A Markdown-based **CSS** formatting which can be converted to **PDF** for enhancing readability and maintainance.

Academic Accomplishments

- Graduate Record Examinations (**GRE**) Score - 314/340
- Test of English as a Foreign Language (**TOEFL**) Score - 95/120
- Medalist at School and State level in International Mathematics Olympiad (**IMO**) & National Cyber Olympiad (**NCO**).
- **Qualified Graduate Aptitude Test in Engineering (GATE)** 2021 - 2022
An examination for admission in Master's Program and jobs in Public Sector Companies in India.

2022	Computer Science	Score - 350/900	All India Rank - 9894 out of 80K (approx).
2021	Electronic Communication	Score - 360/900	All India Rank - 7965 out of 80K (approx).

Technical Skills

- Frontend: HTML, CSS, JavaScript, Angular
- Backend: Java, Dotnet(C#), Python, C++, SQL, NoSQL, Bash script, PowerShell script
- Version Control: Mercurial(Hg), Git
- Tools: IntelliJ IDEA, Visual Studio, Jira, Vim, Office Suites
