# Vivian Roshan Adithan

♥(+91) 8248477136 • ■ vadithan@asu.edu • O github.com/vivianroshan • 🗖 linkedin.com/in/vivianroshan

Engineering graduate with a passion for software development. Proficient in Java, C#, C++, Python, SQL, NoSQL, Shell scripting, and Web technologies. with Strong problem-solving skills. Ready to make a difference in software development world.

### Education

# Arizona State University (ASU), Tempe

Aug2023 - Present

MS in Computer Science

### National Institute of Technology (NIT), Puducherry

Jul 2017 - May 2021

Bachelor of Technology in Electronics and Communication Engineering

CGPA - 7.59/10

# Professional Experience

#### Member Technical Staff (Software Developer), Zoho

Jan 2022 - Jul 2023

Part of OpManager, a network management and monitoring software offered by Zoho.

- · Server side Development with Java.
- Added new feature LAMA (Log Analytics and Monitoring Application) to send data to SEBI (Securities and Exchange Board of India) which opened the OpManager to the Fin-Tech space.
- Implemented robust fault tolerance mechanisms for the Central Probe communication in the Distributed Edition. significantly enhancing the product's stability across multiple modules.
- Revamped the **Public Demo site of OpManager** with cutting-edge multithreading concepts, providing a **responsive** and seamless user experience, allowing customers to effortlessly explore the product's features and capabilities.
- Automated the deployment process for the QAs with **PowerShell** and **Bash** scripts to make the testing process easy.
- Fixed 50+ bugs and handled over 200+ support tickets which needed developer assistance.

### Software Engineer, Mindtree

Jun 2021 - Jan 2022

- Full Stack Web Development with **Dotnet** and **Angular**.
- Designed and developed an **Inventory Management** website for **Dell**.

Intern, Lenovo May 2019

Designed and developed an application to track the stage of assembly of each computer by studying the assembly line of computers and how **Operating System** is bootstrapped into the computers from the **server**.

# **Projects Undertaken**

# National Institute of Technology (NIT), Puducherry

- Image generation and Enhancement using GAN Generative Adversarial Network (Machine Learning).
- Enabling the differently-abled Through Morse code (using Arduino and Proteus simulation).
- Data Compression, Encryption, and Decryption using **Python**.

## Mindtree, Bangalore

Model Book Store using **Dotnet**, **MSSQL**, and **Angular**.

#### **Personal Project**

Version Controlled Resume: A Markdown-based CSS formatting which can be converted to PDF for enhancing readability and maintainance.

# Academic Accomplishments

Graduate Record Examinations (GRE)

Score - 314/340 Score - 95/120

- Test of English as a Foreign Language (TOEFL)
- Medalist at School and State level in International Mathematics Olympiad (IMO) & National Cyber Olympiad (NCO).

Score - 360/900

**Graduate Aptitude Test in Engineering (GATE)** 

2021 - 2022

An examination for admission in Master's Program and jobs in Public Sector Companies in India.

Score - 350/900 All India Rank - 9894 out of 80K (approx). 2022 Computer Science

All India Rank - 7965 out of 80K (approx).

### **Technical Skills**

Frontend: HTML, CSS, JavaScript, Angular

2021 Electronic Communication

- Backend: Java, Dotnet(C#), Python, C++, SQL, NoSQL, Bash script, PowerShell script
- Version Control: Mercurial(Hg), Git
- Tools: IntelliJ IDEA, Visual Studio, Jira, Vim, Office Suites
